

THENEROL BetoClean
HIGH PERFORMANCE CONCRETE REMOVER
WITH AN ADVANCED AND SUPERIOR FORMULATION
FOR THE CLEANING OF READY MIX VEHICLES
AND CONSTRUCTION APPLIANCES

For the thorough and quick removal of concrete, mortar and cement residues, we have a new type of highly active concrete remover on the basis of an innovative raw material.

This enables the user to process the product in a significantly safer way and achieves excellent results even with stubborn stains.

THENEROL MS ECO
UNIVERSAL MIXER PROTECTION

THENEROL MS ECO is a universal care product based on renewable raw materials, which is used for sustainable protection against concrete and mortar residues.

This makes it much more difficult for dirt to adhere and the surfaces look as good as new for longer.

CHARACTERISTICS

- based on renewable raw materials
- solvent-free
- ready to use
- sprayable
- low consumption

AREAS OF APPLICATION

- concrete mixing vehicles and pumps
- construction machinery
- stone making machines
- tools
- work equipment
